Activities

PROFILE SUMMARY

SAP Functional Implementation Consultant with comprehensive experience in **end-to-end SAP S/4HANA implementations** across **SAP FICO, SD, MM, PP, and QM modules and Trainer**. Strong expertise in **business requirement gathering, process mapping, system configuration, integration testing, post-go-live support**. Proven ability to translate business needs into **SAP solutions, configure modules as per real-time scenarios**, and ensure seamless cross-module integration between **FICO-MM-SD-PP-QM**. Experienced in handling **master data, transactional processes, issue resolution**, and client coordination, with a strong focus on delivering stable and scalable SAP solutions

WORK EXPERIENCE

PLACEMENT POINT SOLUTION

2024-PRESENT

SAP CONSULTANT TRAINER

MODULE'S : SAP FICO,SD,PP,MM,QM

- Worked as an SAP Functional Consultant with exposure to end-to-end implementation and training projects across **SAP FICO, SD, MM, PP, and QM** modules.
- Involved in business requirement gathering, AS-IS & TO-BE analysis, and mapping client business processes to SAP best practices.
- Configured and explained core **SAP functionalities, including master data, organizational structures, and transactional processes** across multiple modules.
- Delivered **Real-time implementation-oriented training covering configuration concepts, integration scenarios, and business flow** understanding.
- Provided hands-on training on **SAP S/4HANA system navigation, transactions, and process execution**.
- Explained and demonstrated cross-module integration:
 - MM-FI (Procure to Pay)**
 - SD-FI (Order to Cash)**
 - PP-MM-QM (Production & Quality Flow)**
- Handled **issue analysis, root cause identification, and solution explanation during training and support scenarios**.
- Conducted **mock interviews, case studies, and project-based learning to prepare candidates for real-time SAP roles**.
- Assisted in **cutover activities, data migration overview, and post-go-live support concepts**.
- Maintained training **documentation, configuration notes, business process flows, and functional specifications**.

SAP SD

- Organizational Structure (Sales Org, Distribution Channel, Division)
- Customer Master Data Management
- Pricing Configuration (Condition Types, Access Sequences, Pricing Procedures)
- Sales, Delivery & Billing Document Configuration
